

Dear supporter,

Please consider joining Moline Community Development Corporation in making Moline greener and more livable for generations to come. There will be (21) trees planted along John Deere Commons in the Spring. As the Director for Moline Community Development Corporation, I invite you to help improve the quality of our community by supporting the planting with a contribution of \$1000. Funds raised will supplement a tree replacement program and further the work of Moline Community Development Corporation with neighborhood revitalization.

Urban trees provide numerous benefits, from cleaning our air and water to conserving energy needed to heat and cool our buildings. Studies show that business sales increase at stores where trees have been planted, and pedestrians prefer walking and shopping along tree-lined streets. Additionally, events such as this will bring our community members together to improve public spaces. Stay tuned for details on the Tree Planting Day!

Your gift will help make our planting day meaningful in restoring green-space, which is essential in building vibrant communities. It will also give us a chance to thank you publicly, so the residents of the Moline know of your generosity and sponsors will be honored in a prominent display on John Deere Commons. Additionally, as a gift to Moline Community Development Corporation, a 501(c)(3) nonprofit, your gift will be tax-deductible. Moline Community Development Corporations' Tax ID number is 99-284855. We hope you will join us in this valuable effort that will keep our vision growing.

Thank you for considering a contribution to the Moline Community Development Corporation. Please let me know if you have any questions about the Tree program or other projects led by Moline CDC. You may donate online at <https://moline-community-development-corporation.square.site/> or mail check to:

Moline Community Development Corporation
